MADHAV KUMAR

Email Id : madhav7036@gmail.com **Mobile : +91-7052127036,7356111400**

Objective :

To achieve a challenging position in Software Development in a result oriented company, where acquired skills and education will be utilized towards continuous growth and advancement with challenging projects.

Professional Summary:

- 2.9 years of experience in Java, J2EE design, development experience of Enterprise Application.
- Experience in Software development life cycle (SDLC) including Requirements Analysis, Design, Development, Testing and Enhancements.
- Experience in an Agile Software Development environment using AGILE methods like SCRUM.
- Expertise in Web technologies using Core Java, J2EE, Servlets, JSP, Angular js, and Design Patterns.
- Expertise in MVC Technologies Spring MVC, Hibernate.
- Rich Front End Technologies using HTML, CSS, Angular js , Custom Tags.
- Expertise in Threads (Multi-threading, Synchronization) ○ Web Services experience in REST, JAX-RS, and Apache CXF.
- Experience in implementing Core Java & J2EE design patterns like Singleton, Factory Pattern, DAO, Session Façade and etc.
- Experience in Quality assurance, Unit testing.
- Experience with Application Servers and Web servers using JBoss, Apache Tomcat
- Expertise in RDBMS databases like Oracle 10g
- Experience in working with development tools like Maven, Log4j and JUnit ○ Experience in working with UNIX, Linux, and Windows.
- Experience in working with Angular JS
- Good working knowledge of IDE tools like Eclipse
- Excellent Client interaction skills and proven experience in working independently as well as in a team. Quick learner with the ability to work in a fast-paced environments

Operating System	Windows xp, Windows 7, 8, 10, Unix
Languages	Java, C, JavaScript
Java Technologies/Scripts	WebServices, Hibernate, Spring, Spring MVC JDBC ,JavaScript, Java Beans, Annotations, HTML, Angular JS
RDBMS	Oracle 10g, MySQl.
Tools	Maven, JUnt, Log4j, Drool, SVN, PTC
Web Server	Apache Tomcat
Application Server	JBoss
IDE	Eclipse

Working Experience

- **Java Developer** – **IBS Software.** Bangalore India. Project – **Airline Operations** (Feb 2017- till date**).**

Project Name	Airline Operations
Team Size	**100**
Role	Developer
Duration	Feb 2017 to till date
Environment	Spout Framework (Spring, Hibernate, Web Services) Eclipse.

Description:
iFlight NEO is a unique operational monitoring concept showing both aircraft and crew information that reduces the response time to operational problems. System has an enhanced proactive aircraft and crew alerting mechanism that reduces unplanned diversions, delays, and improves resource utilization. There is an integrated aircraft and crew disruption handling tools that reduces delay and cancellation costs. A comprehensive set of functional modules with high degree of configurability enabling airlines to simplify their software landscape and drastically reduce IT costs. The iFlight NEO functionality can be deployed on multiple devices including tablets and smart-phones ensuring all management and outstation staff are accessing and sharing the same information wherever they are. The crew will have access to mobile apps and a self-service portal helping in process simplification and better work life balance.

Responsibility:

- Designed Presentation Layer with JSP's as per the requirements.
- Implemented Form and its configurations.
- Implemented Validation framework validations with spring.
- Implemented DAO's with Hibernate.
- Implemented Persistence Classes & Implemented **O** Written Spring Interfaces and their implementations.
- Written Web Service to communicate with their producer server

Java Developer – **UST Global.** Kochi India. Project - **Altisource Portfolio Sol** (June 2016 – Nov 2016**).**

Project Name	Ocwean FCBK WriteBack Service
Clients	Altisource Portfolio Sol.
Team Size	**10**
Role	Developer
Duration	June 16 to feb 2017
Environment	Spring, Hibernate, Web Service, Eclipse, JBoss ESB, Drool

Description:

        Ocwean FCBK Write Back Service Behind this Project the idea is Lander(Bank) have a Some amount of data and he has to send that data to Vender(other Organization) in this commutations both have their own formats of data so directly they are not able to communicate each other so we have to create a service to commutations between both we are using RESTfull webservice for Commutations and spring to making the data appropriable for both

Responsibility:

- Implemented DAO's with Hibernate.
- Implemented Persistence Classes & Implemented **O** Written Spring Interfaces and their implementations.
- Written Web Service to communicate with their producer server

Education :

- MCA(Computer Application) from VTU(Bangalore) in 2015

Personal Details

Date of Birth: 10/04/1990
Permanent Address: 3rd floor behind Gandhi circle verthur Bangalore 560087
Languages known: Hindi, English

I, hereby declare that the above mentioned information is true to best of my knowledge & Concern

Date:
Place: Bangalore   **MADHAV KUMAR**
